College of Education Mission

The mission of the College of Education is to undertake the professional preparation of teachers and school service professionals, as identified by state legislative and administrative law. The faculty of the College of Education is committed to meeting the rightful expectations of the public regarding the

education of effective and dedicated professionals and creating a student-centered learning paradigm. The College of Education is also committed to broadening and deepening the pool of educators to reflect the diversity of its school populations.

Our Vision

The professional preparation programs in the College of Education have a shared vision: to prepare teachers and service personnel who impact positively and optimally on the achievement of all P-12 students in academic and non-academic areas. The attributes that are the foundation for our school-based preparation programs are high standards, academic rigor, and intellectual integrity. CSU Stanislaus, College of Education has an enduring commitment to the preparation of professionals who are:

- Competent in their chosen areas,
- Able to integrate subject-matter content with pedagogy appropriate to their field of study,
- Culturally responsive and responsible, knowledgeable, and appreciative of the diversity among learners,
- Committed to self-assessment and reflection,
- Partners, educational advocates, and leaders at the school level and in the wider community, and
- Uses of technology that enhances teaching and learning.

Purpose

Methods of Multilingual Education is designed to provide an overview of theory, methodology and assessment for first and second language development in the PK-12 schools. It will emphasize the cultural origins and politics of language and literacy in relation to the needs of students, families and teachers in a pluralistic society.

Course Goals/Student Outcomes

Students successfully completing this course will:

1. Understand the philosophy, design, goals and characteristics of school-based organizational structures designed to meet the needs of English learners, including English Language Development and the relationship to the state-adopted reading/language arts student content standards.
2. Use materials, apply strategies and methods for English Language Development to the rapid acquisitions of listening, speaking, reading and writing skills in English comparable to those of their grade level peers more fluent in English.
3. Become familiar with state and federal laws pertaining to the education of English learners and how they impact student placement and instructional program.
4. Recognize the characteristics of linguistic development, first and second language acquisition and how first language literacy connects to second language development.

5. Be able to demonstrate instructional practices that promote English Language Development, including management of first and second languages, classroom organization, and participation of specialists and paraprofessionals.
6. Be able to demonstrate systematic instructional strategies designed to make grade appropriate or advanced curriculum content comprehensible to English learners.
7. Be able to apply various assessment models for English learners. Students will understand the purposes, content and use of CELDT.
8. Recognize the importance of family, background, and experiences that students bring to the classroom and to the language acquisition process.

Grade Performance Expectations:

A = Excellent performance. Work is exemplary and worthy of emulation by others. Student constructively contributes to the learning environment.

B = Above average performance. All assignments are complete, on time and exhibit a complete understanding and an ability to apply concepts.

C = Average performance. Student accomplishes minimum requirements or does not complete all assignments. Oral and written communication is at an acceptable level for a college student.

D = Below acceptable performance. Student shows only basic understanding of the material or does not meet all assignment requirements as described in this syllabus.

F = Work is not passing. Student's work is incomplete, chronically late, or does not apply information and concepts in a satisfactory manner.

Course Requirements

Attendance & Participation

Prompt and on-time attendance is required for all-face-to-face classes. If a student misses a class, 5 points may be deducted; talk with the instructor before missing any class. Students are expected post on Bb 3 ½ days after class so that the instructor can respond in the following 3 ½ days. It is the instructor's discretion if points are deducted if posts are not made in a timely manner. Students who arrive late or leave early from any of the face-to-face classes may lose credit points.

If you have to miss a class, or are late to post, discuss the matter with the instructor prior to the event. Post as soon as you can, even if you've missed the deadline. Instructor reserves the right to accept late submissions. Active, thoughtful and reflective participation is required through class readings, discussions, activities, and assignments in class, and on Blackboard. Participation points will only be earned by active, polite ON TIME and substantive participation. Cheating and / or dishonesty is unacceptable and will lead to immediate failure in this course.

You are required to use your CSUSTAN email account for all communication.

Shadow an English Learner CSUS students will shadow one multilingual/bilingual student. A good way to do with is one hour before recess and another hour after recess. During recess CSU students can collect information from the child and from the teacher or other adults who work with that child. The four required reflections will provide the background information

needed for TPA Task 2 & 3: Student 1: An English Learner. This assignment has primacy in the class.

The schedule for how-to-proceed:

Session 1&2: Find the school, the “shadow” student. Make arrangements with teacher and staff at school regarding your plans for shadowing the students. After making the arrangements, use the Permission Form, and returned it Week **Three**, signed by the teacher. Go to www.JoanWink.com, Free to A Good Home, and download the Reflective Cycle and the Action Research. Practice your reflection as you write on these templates. Find other reflective guidelines, if you choose, using a web search. Begin the shadowing process.

Session 3&4: Bring the signed Permission Letter to class. Continue the shadowing process. Practice your reflections using the Reflective Cycle.

Session 6, due 1/15: 1st reflection of “shadow” student due on Discussion Board. Use the Reflective Cycle to collect data on the student. Write your 200 word reflection using the information collected with the Reflective Cycle. Focus ONLY on DESCRIPTION, DESCRIPTION, DESCRIPTION, as you write your narrative.

Session 5-6-7, due 1/16: 2nd reflection due on Bb. Use the *EL Observational Tool* to collect information on the student. Pay close attention to the every 5 minutes “snapshot” of student learning. Use this information to your 200 word narrative for Bb.

Sessions 9&10, due 1/23: 3rd reflection on “shadow” student due on Discussion Board. Teach ELD lesson to “shadow” student; this can be done in a small group. Use this information to write your 200 word reflective narrative on Bb.

Session 9&10, due 1/23: 4th reflection on the shadow student will be based on your learning after giving the SOLOM to the student. By Jan. 19, CSU student will conduct ELD lesson with shadow student AND will give shadow student SOLOM.

Session 11&12, 1/22: Bring a hardcopy of ELD lesson plan, SOLOM, SDAIE lesson plan. SDAIE lesson plan will be given in small groups in CSU class.

English Language Development Lesson:

ELD (K-6) CELDT Levels 1 & 2 Beginning and Early Intermediate CSUS student is required to create a lesson and teach it to the “shadow student” and a small group. This lesson will help practice Step 1 of TPA 2. First, watch <http://lightbridge.sonoma.edu/lightbridge/lessons/publish/3/main/introduction.html> for sample video clips on ELD lessons. The lesson will be delivered to a group that includes the shadow student. All the students should be identified as being at the same CELDT level as the shadowed student. Work samples will be included along with teacher signature that lesson took place, and a reflection (3rd) on the lesson.

Lesson plan, student work samples, teacher’s signature due Session 11 in class.

SDAIE Content Lesson:

CELDT Levels: Intermediate – Early Advanced - Advanced

Students will plan and deliver a content lesson using SDAIE strategies. First, see:

<http://lightbridge.sonoma.edu/lightbridge/lessons/publish/73/main/introduction.html>

for sample videoclips on SDAIE lessons. This lesson will be taught in our CSU class, January 22 and will incorporate in Practice TPA 2 & 3.

Lesson plan, student work samples, teacher's signature due Session 11 in class. Instructor will check off the assignment.

Assess Your Shadow Student What is the CELDT language level of your shadow student? Give the SOLOM during Sessions 9&10 to the shadow student and share the results with the classroom teacher. Bring SOLOM hardcopy to class, Session 11.

Guidelines for Blackboard Postings Instructor will post a question each week on Blackboard (Bb). Students are required to respond to the question by 3 ½ days later, which provides the instructor 3 ½ to read & record. While quantity is an important consideration for full points, quality is most important. A message that says, "I agree," without much discussion or something similar, does not earn points nor will it constitute participation or earn participation points. Students MUST add something of substance to the discussion to earn points. It is recommended that students compose and save all work before posting, in case of problems. Losing work does not exempt you from posting deadlines. Posting on time allows for a smooth flow to the course process.

At midterm and during finals' week, the instructor will post the numerical count of total participation on Bb. Names, of course, will not be posted, however students are encouraged to inquiry privately of their own number of total times reading/thinking/responding on Bb.

Final TPA 2 and TPA 3 Practice Submissions: Each student will be responsible to develop their own practice TPA 2 and 3 to be submitted in class. Students and Instructor will review with feedback. This is an all or nothing submission. TPA Practice Submission Due Dates:

√ TPA 2: Week 12

√ TPA 3: Week 12

Yellow File Folder (reflective electronic process)

Template is posted on Bb.

This is designed to be a short reflective overview of your learning week-by-week. On this folder, save the thoughts/ideas/content/graphics, which mattered to you, from each class session. Feel free to use words or graphics.

5 Levels of Language in Public Schools Today

- (1) Beginning
- (2) Early Intermediate
- (3) Intermediate
- (4) Early Advanced
- (5) Advanced

Descriptors of these 5 levels:

CELDT levels/descriptors are also posted on Course Documents of Bb.

Beginning: Preproduction/Early Production: Students at the beginning levels of language acquisition are communicating nonverbally or using one- or two-word English responses. They are using common social greetings and simple repetitive phrases.

Early Intermediate: Speech Emergence: Students are increasing their vocabulary and asking and answering questions using phrases or simple sentences. They can express basic needs and recite familiar rhymes, songs, and simple stories.

Intermediate: Beginning Fluency: Students are beginning to develop some fluency and are communicating more effectively. They are increasing their reading vocabulary and their ability to understand written material. They are able to participate more fully in classroom discussions.

Early Advanced: Intermediate Fluency: Students have increased their vocabulary as well as their ability to communicate both orally and in writing. They are able to take part in regular classroom activities, but there may be some gaps in understanding. As students progress through this stage, it begins to be important to be concerned with pronunciation and “correctness,” especially if students show an interest by asking such things as, “Am I saying it right?”

Advanced: Advanced Fluency: Students are able to take part in mainstream classroom activities. They demonstrate understanding of idiomatic expressions. They are using standard English grammatical forms, but continue to refine their language skills in the areas of pronunciation, vocabulary development, and syntax. Use of language is fluid.

Winter, 2009

Dear School Principal and Classroom Teacher,

_____ is a Multiple Subjects
Credential Program student at CSU Stanislaus and is currently enrolled in my
section of EDMS 4150 – Methods in Multilingual Education. This course is for
students pursuing their Multiple Subjects credential. One of the requirements for
this course is to learn about teaching and learning in an elementary classroom
via first hand experience in an elementary school.

Specifically, the CSUS student is required shadow an ELD student and write
four reflections on the student's learning. In addition, the CSUS student must
teach at least one ELD lesson. These two lessons must include the "shadowed"
student and can also include a small group of students with similar linguistic
needs. I also ask the CSU student to complete one SOLOM matrix on the
student.

It would be greatly appreciated if you would provide an opportunity for the CSUS
student to teach an ELD. If you have any questions, or would like additional
information, please call me at the number below. Your assistance is greatly
appreciated.

Sincerely,

Joan Wink, Ph. D.
